

Items Added During the Semester

If you want to make the font that the author uses for the power set, namely \mathcal{P} , then you will need to place `\usepackage{mathrsfs}` somewhere between the `\documentclass` command and the `\begin{document}` command. This allows you to use a script font whose letters look like

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z .

this was printed using the command `\[\mathscr{ABCDEFGHIJKLMNOPQRSTUVWXYZ}\,.\]`
