

Problem of the Day (November 10, 2017)

The function $f(x) = 1/(1 + x^2)$ on the interval $I = [0, 2]$ is pictured below. Calculate the right-hand rule and the left-hand rule for f on I using $n = 5$ subdivisions. Draw the picture of the right-hand rule.

Problem of the Day (November 10, 2017)
